

Mid-Semester Examination, Monsoon 2025-2026

NHSA 103 Understanding Human Behaviour

Instructions

19th September 2025

1. All the questions are compulsory
2. Marks are indicated against each question. Total Marks is 30
3. There are four parts (A, B, C, D). All parts need to be answered separately. Start each part from a fresh page
4. If a question mentions word limit, it must be followed
5. Time limit is 1 hour

PART A

1. What is the difference between a panic attack and a panic disorder? (2 marks)
2. Identify the personality traits which are prominent in dependent personality disorder.

Which symptom is common between Borderline and Dependent personality disorders? (2 marks)

3. Which three aspects of a person are affected in Borderline personality disorder? (1.5 marks)
4. Highlight the difference between obsession and compulsion? (2 marks)

PART B

1. What is a concept? How are concepts represented according to the classical view (0.5 + 1 marks)
2. Explain why prototype theory may have difficulty categorizing penguins as birds, and how exemplar theory addresses this issue. (2 marks)
3. Distinguish between Confirmation Bias and Availability Heuristic using examples. (2 marks)
4. What is Loss Aversion? Describe in the context of the framing effect. (2 marks)

PART C

1. Discuss three factors that impact conformity. Give real life examples for each factor. (4 marks)
2. What according to you is the best technique for compliance? Explain why using a real life example. (3.5 marks)

PART D

1. For each of the following, identify the type of conditioning and the elements. ($2 * 3 = 6$ marks) (maximum word limit: 50 words).

If it's classical conditioning write down the UCS, UCR, CS and CR. If it's operant conditioning write down the reinforcement or punishment.

- Rajiv's chemistry teacher often announces surprise tests in the class. With the announcement, Rajiv starts feeling anxious and his heart rate increases. After a few months, even when the teacher walks in with a stack of assignment sheets and not test papers in hand, Rajiv starts feeling the same anxiety and his heart rate increases.
- During soccer practise, Emily argues with her coach. As a result, the coach benches her for the next match. After missing the game, Emily becomes more careful about her behaviour.
- When Ava helps her younger brother with homework, her parents let her play extra 30 minutes of video games. She starts helping him more often.

2. Mention any 3 differences between classical and operant conditioning. ($0.5 * 3 = 1.5$) (maximum word limit: 75 words).
