

Model Answers – Part B

UHB (Social Psychology)

Q 1. Suppose you have developed a product, how do you think you can use any two compliance techniques to ensure a maximum reach among the audience? (6 marks)

Answer:

- Name of the techniques (any two out of these techniques: a) door in the face, b) face in the door, c) pique, d) low ball, e) that's not all.
- 2 marks for naming the techniques, 1 mark each.
- 4 marks for an explanation of how the techniques will be used. 2 marks for the explanation of each technique.
- Note: The explanation must include: a brief description of the technique, and the strategy through which the technique is implemented.

2. How do you think the illusion of morality and group polarization affect group decision-making? (4 marks)

Answer:

- The answer is divided into two parts; part a (illusion of morality) and part b (group polarisation). 2 marks for the correct explanation of each part.
- Note: Explanation for both parts must include the following points

- ❖ The illusion of morality: members believe that they, as moral individuals, are unlikely to make bad decisions.
- ❖ Group polarization: riskier shift, extreme decision
